Knowledge Base

Within the frame of the INOWASIA project, a knowledge base covering all the reports and other information gathered and exchanged during the preparatory phase (WP1) is generated. This database will serve as a basis for the development of the INOW modular learning programme.

After checking different possibilities, the most convenient option for this knowledge base was to gather the information in the INOW ASIA google drive – giving easy access to all partners. The documentation inside of google drive is organized in an easy way to find the documentation requested or needed in any moment:

WP1 folder

This folder contains these sub-folders:

- Questionnaires
- Academic professional committee
- WP1 preparatory documents
- WP1 deliverable drafts
- WP1 presentations
